

Authorization for Costa Rica Donations

To Whom It May Concern:

The bearer of this letter is authorized by International Service Learning and the non-profit medical organizations it represents in Central and South America to collect medicines for medical clinics and projects in Costa Rica. These medications and their distribution will be under the care and authority of medical personnel recognized by the local governments. Detailed information is available upon request.

You will be provided with a list of medications and supplies of which our service communities in Costa Rica are in immediate need. Please contact ISL with any questions.

Thank you for your willingness to help in this critical endeavor - your help is very much appreciated!

Your co-workers in medical service,

A handwritten signature in black ink, appearing to read 'J. Birnbaum', with a large, stylized initial 'J'.

Jonathan Birnbaum
